

## Coronavirus (COVID-19) Company Statement

Kenect Recruitment acknowledges that employers have a vital role to play by taking sensible action to prevent the spread of COVID-19 such as ensuring that workers have access to appropriate hygiene facilities such as hot water, soap and bins to get rid of used tissues.

Workers are advised to maintain good hygiene standards around the workplace and on site by following the advice from the World Health Organisation's (WHO) website, and this is the guidance we shall give to our employees.

Kenect Recruitment continues to closely monitor the COVID-19 situation very carefully. Our customers, partners and employee's health and safety remain our absolute priority and as such, our actions are guided by the latest advice from the World Health Organisation (WHO) and Public Health England.

Offices will remain open but staff are asked to lock the doors to any customers should they be located in tier 2 or 3. Tier 1 offices can remain open but guests MUST at all times wear face coverings and staff also when meeting and greeting. A two-metre distance must also be respected as well as no physical contact.

We strongly encourage all employees to keep their social bubble small and be sensible when not in work to decrease the risk of infection within their work bubble.

We are regularly updating employees on the situation and on necessary precautions to take based upon expert advice. If any of our employees are feeling unwell, we ask that they contact their line manager immediately.

### **Additional sources of information**

As the situation is changing rapidly, and to ensure our guidance is current and correct, and we offer and provide the highest focus on the health, safety and wellbeing of our employees, customers and the general public, all employees should refer in the first instance to the following:

*WHO - for their Situation Report*

<https://www.who.int/emergencies/diseases/novel-coronavirus-2019/situation-reports>

*Rolling updates on COVID-19*

<https://www.who.int/emergencies/diseases/novel-coronavirus-2019/events-as-they-happen>

*Public Health England – for latest situation reports in the UK*
